We are looking for a

Software Engineer (m/f/d) 80-100%

who will shape the future of digital lending with us.

i2 group is a Swiss fintech startup group redefining digital lending for institutional investors. Being an aggregator with a disruptive business model, we have established a software solution which facilitates digital lending investments in over 30 countries. To reach the next stage, we are looking for an ambitious and highly reliable Software Engineer based in Pristina.

You will have the unique opportunity of working in a skilled and lean development team. We are looking for highly talented and motivated people who are eager to learn and grow with us.

What will you be doing?

- Further advance our scraping framework using Python
- Develop SPAs using Vue.js
- Engineer Job Automation and REST APIs using Java (Spring Boot) and MariaDB
- Implement quick and efficient communication between microservices using RabbitMQ / Kafka
- Be responsible for continuous deployment using various DevOps concepts and tools (Docker, SSH, CI/CD pipelines, Log monitoring with the Elastic stack)
- Lead and educate new Junior Software Engineers
- Review code written by co-workers and test its functionality

What you offer

- BSc or MSc in Computer Science or related technical field
- You have strong work ethics and pay attention to detail
- You are able to work independently and be a mentor in an agile environment
- Strong belief in getting things done and being autonomous
- 2-4 years work experience using Python and a web framework such as Vue.js
- Experience with Java (Spring Boot) and SQL are a plus

Your benefits

- Opportunity to work in a fast-growing fintech company
- Dynamic work and team atmosphere with flat hierarchies and entrepreneurial spirit
- Professional development practices with emphasis on code quality ensured by thorough code reviews
- Hands-on experience on the most cutting edge technologies
- Competitive compensation and participation in your health insurance plan
- We strive by giving autonomy and flexibility to our teams. We have a strong belief that responsible people should have the freedom to work when and how they want
- Regular fun events
- Start: immediately (or by arrangement)
- Location: Co-working space in Pristina and opportunity to work remotely

Interested?

If you are interested in joining our passionate team, please send your complete application (CV should contain experience and projects) to recruitment@i2invest.ch no later than February 28th, 2022, and let us know when we can reach you for further questions.
